Can I transfer money from my Targobank account?

Christine - 2018-05-16 - in Send money / Request money

As the Targobank does not support the request via "HBCI+" or "FinTS PIN/TAN", Outbank has to read the data directly from the website. Therefore, we can only provide balance and transactions.

TAN-based transactions can only be supported when the Targobank enables inquiries via "HBCI" or "FinTS PIN/TAN".
