How can i do a transfer on my Mac per QR-Code?

Christine - 2017-07-06 - in [Send money / Request money](#)

Please proceed as follows to do a transfer via QR-Code on your Mac:

- Click on 'Send money'
- Choose the account, from which you want to pay the bill
- Click on 'Scan QR-Code' in the next step and move the scan-window over the QR-Code from your bill; the transfer data will be added automatically
- confirm the payment as usually with a TAN
