How can i change the order of the Account Groups?

Christine - 2018-07-13 - in Account groups

You can change the order of the Account Groups in the Settings > Accounts Grouping:

'Settings' > 'Account Grouping' > 'Edit Button in the upper right corner' > 'grab the group with your finger' > 'pull to the desired position' > 'Save'

Note:

Accounts, non-grouped accounts will always be shown on top under 'My Accounts'. This group cannot be relocated.
