How do I change an account's name in Outbank?

Christine - 2019-06-03 - in Edit accounts

You can change the names of your accounts in two ways:

1. 'Settings' > 'Bank access' > 'Select account' > 'Change the name directly in the business card or under "Name"'

or

2. 'Accounts' > 'Account' > 'press the drop-down next to the account' > 'change the name at the top of the business card or under "Name"'
