How can I search my sales in Outbank?

Christine - 2018-07-13 - in Search / Filter

You can search in your transactions either globally - across all accounts - or in a single account.

To use the Global Search, please proceed as follows:

'Accounts' > tap the magnifying glass above your account list, enter your search term and filter if necessary.

To search sales in a single account, please follow these steps:

'Accounts' > 'Select account' > tap the magnifying glass above the sales list, enter your search term and, if necessary, filter further criteria.

You can filter the search results using certain filters, e.g. By period or amount.
