## How can I take a look to my Payback account?

Christine - 2018-01-31 - in [Banks](#)

To see your Payback account in Outbank, you need to create a separate account for your Payback account.

Please proceed as follows:

'+-Button in the Tabbar' > 'Account' > 'Search for "Payback"' > Set up access with your access data

You will then see your points as in a normal account as sales charge or debiting.
