How can I create my account in account groups?

Christine - 2018-07-13 - in Account groups

To add a new Account Group on your Android device please proceed as follows:

'Settings' > 'Account Grouping' > 'click on the FAB-Button in the right corner' > 'enter the name of the Group'

or

'Accounts' > 'select and hold an account' > 'click on the FAB-Button in the right corner' > 'enter the name of the Group'

Now you can enter the name of the Group and accounts to the new Group.

Accounts that are already shown with a little symbol already belong to an existing group. If you assign them to a new Group, they will be shown in this new Group.
