## How can I deposit my TAN list in Outbank?

Christine - 2016-10-26 - in [Security Methods](#)

It is not possible to save or create TAN lists in Outbank.

As iTAN lists are no longer supported by many banks, there will be no integration into Outbank.

In addition to iTAN, Outbank supports the following TAN methods:

- MobileTAN (SMS-TAN)
- Manual-ChipTAN method
- Optical ChipTAN method
- PhotoTAN
- PushTAN
