## How can I print/export search results or filtered transactions on my Android device?

Christine - 2017-10-20 - in Print / Export

Enter your search term in the search field and add a filter (if necessary), f.e. search for 'rent' and filter for '2016'.

Now tap on the 3 dotted button at the top right and select 'Share'. Now choose either CSV or PDF to export/print the list of transactions.
