How can I activate the Touch ID function?

Christine - 2019-02-20 - in Master password

First, make sure that Touch ID is enabled in the settings of your device.

Open Outbank and activate the quick registration via touch ID in the login screen:

'Click the Touch ID icon' > 'Enter the master password'

or

Activate Touch ID in app settings:

'Settings' > 'Touch ID:ON' > 'Enter master password'
