Wie kann ich Umsätze als CSV-Datei exportieren?

Christine - 2019-03-12 - in Print / Export

Create CSV file of transaction details

- Accounts > Choose account > Open transaction details > Tab on the 3 dotted button at the top right > Share > Select CSV > Choose an application to send/store/print your CSV file

Create CSV file of multiple transactions

- Accounts > Choose account > Click on 'Edit' above the transaction list > Select the transactions of your choice > Tab on the 3 dotted button at the top right > Share > Select CSV > Choose an application to send/store/print your CSV file

Create CSV file of all transactions of an account

- Tab on the filter button above the transaction list > Choose 'All transactions' > Set the filter by clicking on 'Apply' > Tab on the 3 dotted button at the top right > Share > Select CSV > Choose an application to send/store/print your CSV file
