Wie kann ich Umsatzdetails drucken?

Christine - 2018-07-13 - in [Print / Export](#)

Please follow these steps to print transaction details on your Android device:

- Accounts > Choose account > Open transaction details > Tab on the 3 dotted button at the top right > Share
- Select the format of your choice & send it to your printer

Note: When you print transaction details, your individual notes will be printed as well.
