How can i edit existing budgets on iOS or macOS?

Christine - 2020-01-28 - in Contracts / Budgets

In the budgets overview you can see the progress of your budgets.

With every new payment the budget-bar goes on further to the right side.

This is how you can edit your budgets:

In the budget's details you can edit the budget (on macOS please click on 'Edit' in the bottom right):

- Category: click on the category and then choose the new category from the list of categories
- Name: Here you can edit the individual name for your budget
- Amount: click on the value and enter the new value for your budget
- Tags and Categories: click on 'Edit Tags' or 'Edit Categories' and add new tags / categories or delete tags / categories. Please note that every budget has to have at least one tag / category assigned.
